

**Carrabassett Region NEMBA**  
**Mission Statement**  
**7.26.10**

Carrabassett Region NEMBA is a non-profit organization dedicated to the building and maintenance of a sustainable mountain bike trail network in the Western mountains of Franklin and Southern Somerset Counties. Our goals are to increase the use of regional trails, link communities and support local businesses.

We work closely with land managers, local governments, and other recreational organizations to preserve access to sustainable trails for mountain bicyclists of all skill levels. We sponsor events to promote wellness through outdoor recreation, attract new riders to the area and educate the mountain bike community to ride sensitively and responsibly in order to preserve the environment and the experience of other trail users.
